Travels

## HDT Trajectory Workshops

Conducted by Practitioner Kal Ng

Offering to BA(HDT) Students

1. Design your ‘Quest’ in the Landscape of Humanities & Digital Technologies [HDT]
2. Gear up your skillset & mindset on your interdisciplinary journey
3. Find comrades and teammates with the networked cohort of BA(HDT) students
4. Master the essential ingredients to cook up a spectacular graduation project that automatically finds its audience and employer.
5. If you find a better deal than attending the HDT Trajectory Workshop, we will make you ‘an offer you can’t refuse’! Yes, only at BA(HDT) that we offer the workshop, not in other degree programmes.
